

ModelDesigner for Microsoft® Visio®

With the Logic4BIZ ModelDesigner for Microsoft® Visio® you can create your process-oriented information and organization depictions yourself and publish them in your enabler^{4BIZ} with only a few mouse clicks. The Logic4BIZ ModelDesigner is the perfect addition to the enabler^{4BIZ} (Quality) Management System.

Gain even more freedom during the creation of your process depictions and depictions of your organization.

Independent of which form of depiction you would like to make available in your management system – whether a process model, organization chart, production process, personnel development scheme or map with your company locations – each of the mentioned depiction types offers you advantages and means different requirements regarding the information and knowledge content. The responsibility linked to the document and information provision can be met with the enabler^{4BIZ} and the various depiction forms, and the graphic depiction can be adapted or amended with the help of the Logic4BIZ ModelDesigner for Microsoft® Visio® at any time.

Full Integration in Microsoft® Visio®

- ▶ Easy installation
- ▶ Automatic integration of a specific template and a shape library with different process symbols
- ▶ Own export function for the transfer to the enabler^{4BIZ}

Install and start

- ▶ Additional menu bar in Microsoft® Visio® with the required functions
- ▶ Use of already existing Visio® drawings, shapes or graphic forms
- ▶ Easy definition of process parameters
- ▶ Hierarchical structuring through the use of several worksheets
- ▶ Embedding any graphic elements (company logo, navigation item to other levels, ...)

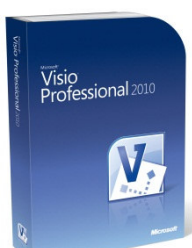

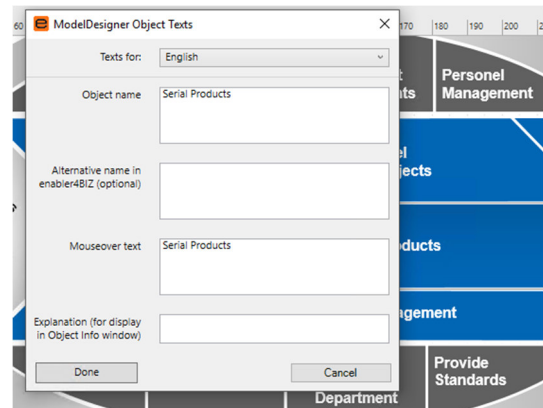

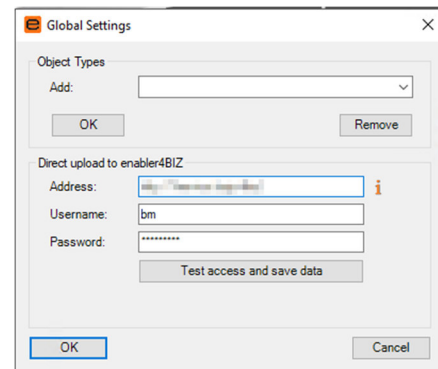

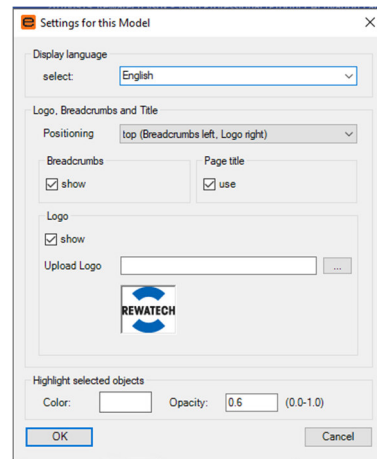

Logic4BIZ ModelDesigner for Microsoft® Visio®

- ▶ Extension for your existing Microsoft® Visio®
- ▶ Easy management and processing of your process and organizational models
- ▶ Process modeling via predefined shapes and those generated by oneself

Process modeling made easy

- ▶ No specific IT or image processing skills required - Microsoft® Visio® is easy to learn
- ▶ No complicated management of extensions in the enabler⁴BIZ
- ▶ Own worksheet template with optimized worksheet settings
- ▶ Automatic integration and positioning of your company logo in the model area
- ▶ Integration of navigation elements („Breadcrumbs“) to the main level as well as the last displayed level
- ▶ Freely definable positioning of the graphical elements
- ▶ Offline editing independent of the enabler⁴BIZ server, upload of the model after completion
- ▶ Recording any additional information for each graphic element (Mouse-Over text)
- ▶ Automatic import of object names into the enabler⁴BIZ
- ▶ Definition of the object type for the allocation of the object to the correct enabler⁴BIZ type
- ▶ Export into a transparent data archive which can be imported into the enabler⁴BIZ without further editing
- ▶ Easy authorization management via the enabler⁴BIZ administration interface
- ▶ Saving graphics in the vsd format
- ▶ Extensibility of the supplied shape library for model creation with own shapes and use of any shapes from other libraries

We would also be happy to support you during content-related development, the creation and implementation of your process and organizational model.
